

# BEYOND THE WORDS

**1ST SEPTEMBER 2022**

**HUSTLE CULTURE**

On Thursday, in both the boys' and girls' first break, the Health and Mind Club hosted "Beyond the Words". The aim of this event was to provide students a platform where they could share their experiences, thoughts, or showcase their talents.

The topic was Hustle Culture, often referred to as burnout culture, which is the idea that one must work nonstop in order to accomplish their goals.

The event started off with a few students who took the stage to share their personal experiences with the topic. It was then concluded on a musical note with a performance put up by the 11th graders.

Overall, the audience had a great time, and we hope to conduct more of these events in the future!
